## Laetus Open House Serialization

**Laetus, June 2016.** Representatives of the international pharmaceutical industry and contract manufacturers followed an invitation by Laetus and participated in a compact two-day event in the Track & Trace Academy in Bensheim, Germany. The successful event centered on the question of how to meet the requirements of EU-FMD safely, efficiently and within the prescribed three-year time period.

The successful mix of background information on the structure of the EU regulations, field reports of successful serialization projects, live demonstrations of serialization and aggregation on different packaging lines and demo training sessions convinced the numerous participants from all across Europe.

Away from the fixed program points, participants took advantage of extended break times to compare their experiences and to network - an opportunity that has been well received and led to intense discussions. It was evident how vital the topic of implementing the EU FMD is and how many questions are still unanswered. To address this need for information, Laetus will offer additional events around serialization and Track & Trace in 2017.

**About Laetus**

Founded in 1974, Laetus is an industry leader in inline quality inspection systems with thousands of successful installations of its renowned ARGUS, POLYPHEM, and INSPECT solutions across identification, fill inspection, and other quality control applications. With its Secure Track and Trace Solution (S-TTS), Laetus is also a leader in developing robust supply chain solutions for the Pharmaceutical, Medical, Cosmetics and FMCG industries enabling the requirements of all regulations regarding anticounterfeiting to be fulfilled. Laetus partners with its' customers to address their unique serialisation and traceability requirements. Laetus has sold more than 18,000 systems across the globe including more than 42,000 Laetus cameras and sensors. Headquartered in Alsbach-Hähnlein, Germany, Laetus has significant scale to address the needs of customers worldwide with some 250 employees and direct sales and engineering operations in France, Germany, Italy, Spain, UK, the US, China, India, Brazil, and Mexico. In addition, Laetus has an extensive network of valued channel partners that extend Laetus' technical expertise in another 40 countries. In December 2015 Laetus has been acquired by Danaher. It operates as an independent business within the Product Identification Platform.
