Experience serialization and aggregation first-hand at PACK EXPO

Laetus, October 2016. From the 6th to the 9th of November, Laetus will be present at Stand W 869 at the PACK EXPO international 2016 in Chicago. Here we will give visitors a first-hand opportunity to experience solutions for reliable serialization and aggregation in the pharmaceutical packaging process.

Together with its partner, HERMA, the industry leader in inline quality control will be presenting the application and verification of clear markings on folding boxes and medicine bottles.

At Stand W 694 the HERMA 132M all-round labeling system with integrated Laetus Secure Track & Trace Solutions (S-TTS) software will carry out the serialization of medicine bottles. The serialization of folding boxes will be shown at the Laetus stand, using the compact MV-50 pack handling system.

Visitors will see how to combine serialized bottles and folding boxes into one shipping order in a single aggregation step with the mobile CS-115 manual packing station. In this step, the S-TTS software ensures that the serial data is processed securely.

Mark 1,023 incl. Spaces

About Laetus

Founded in 1974, Laetus is an industry leader in inline quality inspection systems with thousands of successful installations of its renowned ARGUS, POLYPHEM, and INSPECT solutions across identification, fill inspection, and other quality control applications. With its Secure Track and Trace Solution (S-TTS), Laetus is also a leader in developing robust supply chain solutions for the Pharmaceutical, Medical, Cosmetics and FMCG industries enabling the requirements of all regulations regarding anti-counterfeiting to be fulfilled. Laetus partners with its customers to address their unique serialization and traceability requirements. Laetus has sold more than 18,000 systems across the globe including more than 42,000 Laetus cameras and sensors. Headquartered in Alsbach-Hähnlein, Germany, Laetus has significant scale to address the needs of customers worldwide with some 250 employees and direct sales and engineering operations in France, Germany, Italy, Spain, UK, the US, China, South America, and Mexico. In addition, Laetus has an extensive network of valued channel partners that extend Laetus' technical expertise in another 40 countries. In December 2015 Laetus has been acquired by Danaher. It operates as an independent business within the Product Identification Platform.
